PROFESSIONAL SUMMARY

Software Engineering undergraduate at FAST-NUCES Karachi with practical experience building web and desktop applications through academic projects. Proficient in Java, SQL, and web technologies, with exposure to both frontend and backend development. TCF Merit Scholar with strong communication skills developed through teaching and student coordination roles. Seeking a junior developer or IT role to grow professionally and contribute to real-world software projects.

EDUCATION

Bachelor of Science in Software Engineering 2023 – Present

FAST National University of Computer and Emerging Sciences (FAST-NUCES), Karachi

Intermediate – Pre-Engineering 2021 – 2023 with 80%

The Citizens Foundation (TCF) College

TCF Tertiary Scholarship Recipient — Merit-based scholarship covering 95% of university tuition fees

Matriculation– Science 2019 – 2021 with 90%

The Citizens Foundation (TCF) School

PROJECTS

AI Sentiment Analysis Model

Developed an AI-based sentiment analysis system using Natural Language Processing (NLP) and Machine Learning techniques to classify text data into positive, negative, and neutral sentiments. Performed data preprocessing, feature extraction, model training, and evaluation to improve classification accuracy.

Food Hunter Web App — React · PHP · MySQL

- ▶ Built a full-stack web application enabling users to discover and review local food outlets across Karachi
- ▶ Implemented search functionality, star ratings, and location-based filtering for improved user experience
- ▶ Designed and managed relational MySQL database; secured with user authentication and session management

Bank Management System — Java · HTML/CSS · MySQL · Git

- ▶ Developed a web-based banking system with login, account creation, deposits, withdrawals, and transaction history
- ▶ Integrated MySQL for persistent data storage; used Git for collaborative version control across a team

Student Attendance Management System — Java · Swing · MySQL

- ▶ Built a desktop application for managing student attendance records with a clean GUI and admin controls
- ▶ Implemented secure login, class-wise attendance tracking, and report generation features

EXPERIENCE & ACTIVITIES

Teaching Assistant – Operating Systems | FAST-NUCES Karachi 2024

- ▶ Supported students with assignment clarification, debugging sessions, and OS concepts like scheduling and memory management

Volunteer – Student Support | The Citizens Foundation (TCF) 2021 – 2023

- ▶ Counseled junior students on academic planning and career guidance
- ▶ Served as invigilator for TCF college entry tests; coordinated between TCF school and college administration

TECHNICAL SKILLS

Languages: Java, C++, C, SQL, HTML, CSS, JavaScript

Frameworks & Libraries: React.js, Java Swing

Backend & Databases: PHP, MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, Postman

Concepts: Object-Oriented Programming, Data Structures, REST APIs, MVC Architecture

Productivity: MS Office (Word, Excel, PowerPoint)

CORE COMPETENCIES

Team Collaboration · Time Management · Event Coordination · Student Mentoring · Decision Making · Administrative Operations
